XILASS!

Opposite the Myers House, STANFORD, KY. The object of this called meeting is to argue, take into consideration and pass your vote in favor of D. KLASS' following Notions for this general meeting: -

1st. Whereas, I have bought a large stock of Spring Goods, but have not sold them out as quickly as I am generally doing, because the Spring forgot to make its appearance this year, and 2d. Whereas, It is my custom never to carry stock over from season to season, and that in order to sell this large stock of Clothing, Dry Goods, Boots, Shoes, &c., &c., in a short time I must make some sacrifice in prices, there-

Resolved, And I have resolved that from this day on, or until further notice is given, every article in my store will be offered at an immense reduction and many goods BELOW COST. But I will do still better and make this liberal offer, to wit: It is further resolved that

Every Customer Purchasing to the Amount of \$10 will Receive a Very Fine, Large Oil Painting, Elegantly Framed, good enough for the Finest Parlor, and free of charge.

(These are no common chromos, but first-class Paintings) Still better yet: And in order to give those a chance who may not need or not be able to buy \$10 worth of goods at once, I will give the same chances, and allow every small purchase to ce counted till the whole amount reaches the sum of \$10. I want it distinctly understood that each painting given away is worth nearly the amount of your purchase.

The Prices on all My Goods are away Below all Competition, and especially so this season.

I MAKE THIS LIBERAL OFFER FOR TWO REASONS:

First, to Reduce my Immense Stock, and secondly to show my Appreciation in some way to the people for their kind patronage.

Don't buy 5 cents worth of Goods till you have Examined my Stock and Hear Prices.

Every One Should Attend the Great Mass Meeting at

A GREAT many people have found their company of ladies and seemed to be at a fued. loss to know what to do with them. Horace Baldwin, of Wisconsin, was probably morist, is dead after being bed ridden for one of those unfortunate fellows during years. life for he was six feet seven inches tall, but in death the matter did not bother his nephews at all. The nephews came near getting a mobbing however for problem.

The largest stock ever in Stanford and the best to be found in Central Kentucky, embracing about twenty five different styles from the leading manufacturers in the United States. Persons contemplating buying a vehicle this Spring should select the same or place their orders at once; for at this season all manufacturers of first-class vehicles are invariably over-run with orders and if the vehicle wanted is not on hands, it will require from four to eight weeks to obtain it; four weeks being required to make, finish and dry a firstclass job ready for shipment, under the most favorable circumstances.

All work sold by me will be found to be such as I represent them, unless I have been deceived myself, and in that event the purchaser will be fully indemnified. Call and examine my stock and I will do my best to please you in style, quality and price. You can get as good vehicles from me and at as reasonable prices as you can obtain anywhere else and get a guarantee on them, besides that is worthless to you when buying away from home. Res-

A medicine that will effect a removal of the specific obstacle to renewed health and vigor, that is a genuine corrective, is the real need. It is the pessession of this grand requirement which makes Hostetter's Stomach Bitters so effective as an invigorant. For sale by all Druggists and Dealers generally.

Crow's Smuggler!

Justified by the attendence and appreciation accorded its efforts in the past, the management of 1884 has resolved to even, out do its past attempts to offer at Louis-ville an exhibition typical of Kentucky and the whole South and Southwest. To accomplish the greatest possibilities the brightest intellect, the most varied tastes the widest experience will be called into requisition. The ideal in art and music, the best and most perfect of mechanical effects and appliances, the latest and most wonderful phases of light by electricity, in addition to the grandest display of the products and resources of our own and sister Southern States will all be secured and showed in what is designed to be the greatest industrial exposition of the age.

The consummation of the arrangements with Cappa and Gilmore assures the Southern Exposition the repetition of probably the most charming feature of last year's exhibition. From August 16, to October 25, there will thus be given two concerts promised." With a subdued counterance, the man looked up and replied, "To tell pears without an inheritance. It is safe to presume that such great performing ability never appears without an inheritance.

the man looked up and replied, "To tell you the truth, governor, she ain't worth this kind had never been attempted by any exposition until the Southern Exposition of 1883, and the repetition of the engagements this year will probably make our exhibition exceptional in this respect.

The pyrotechnique display of last year, amount is between one and two dollars. If the protection of last year, amount is between one and two dollars. If the horse will stand at my stables, 4 miles west of sandord, Ky.on the Stanford, Ky.on t

and first-class Eastern borses than any other stal-lion in Kentucky, will make the season of 1884 four miles west of Stanford, directly on the Knob Lick pike, and will be permitted to serve mares at the extremely low price of \$20 the season or \$30 to insure. Parting with the mare forfeits the in-surance. He is an excellent breeder and a sure foal getter. Grays furnished as \$20 to the season or \$30 foal getter. Grass furnished at \$2 per month.

Due care taken to prevent accidents or escapes,
but will not be responsible should any occur. DESCRIPTION AND PEDIGERE.—Nobby is a jet black, with small star and two white feet, 16 hands 1 inch bigb, fine mane and tail, good bony leg, beautiful head and neck, excellent shoulder, back and foin—in fact faultless in symmetry—and will guarantee there doesn't live a stallion possessed of a better disposition; and these qualities he almost invariably imparts to his progeny. As an evidence that he will produce very fast houses when crossed that he will produce very fast homes when crossed on good mares is the fact that some of his very speediest colts have nothing but a Sir Wallace dam to recommend them. This of itself is conclusive proof that the speed comes from the sire. Some of the coldest-blooded mates in the land have produced fast colts by him. Mr. Alex. Johnson says. "I have handled more of Nobby's colts than any man, and they are all fast." Mr. Wm. Dodd says "no better roadsters live." Mr. Purdom has one with little handling that is trotting his mile in 2 3%, and says "no better closs of herese can be found." Mr. F. D. Nunes says no road is too long for any of them, and every one a seller." Warren Russel's Nobby made a record of 2 25 and was sold to W. C. Fair, Cleveland, Ohio, for \$5,000. If necessary could give numbers of testimonials from the best horse men of our ccuntry commending Nobby to the favorable consideration of all lovers of good horses, but will let the above suffice. Examine the horse, and if you are disposed to give him your horses, but will let the above suffice. Examine the herse, and if you are disposed to give him your patronage I will guarantee value received for your money.
